

## CLAUDINE CUTS BOAT IN TWO OFF HARBOR

An exciting episode is reported to have taken place off the harbor early Sunday morning. The steamer Claudine from Maui, when near the bell buoy, struck a large boat containing twelve persons aboard, cutting it in two and precipitating the occupants into the water. There were two babies in the boat and some others who could not swim. The crew of the Claudine aided the swimmers of the boat's company in rescuing the lives in jeopardy and, after lively work of the steamer's boatmen and the strong swimmers, all were saved. Such are the outlines of the story as it came to the Advertiser too late for complete verification.

I would walk five miles for a nice, hot chicken tamale. —Greedy Jim.

Good chicken tamales are worth going a long way for. In this neck of the woods they are few and far between.

Tonight, that is after 6 p. m., at the CRITERION, there will be served chicken tamales which will take you right back to the States where the genuine article is in hot demand from January to December.

### CHRISTENING THE BABY.

An interesting service was held yesterday afternoon at the Hospital for Incurables, Kaimuki. The meeting was in charge of J. W. Wadman, pastor of the First M. E. church and Miss Edith Lyle presided at the organ. Addresses were made to the 35 or 40 patients assembled on the lanai by Mr. Martin, Mrs. E. S. Damon and Mr. Haley. Misses Lyle and Hiscock sang solos. The interesting feature of the service was the christening of the Baby organ, which Mrs. Damon has succeeded in purchasing by the aid of contributions from several personal friends, in a characteristic address by Mr. Martin. The name suggested for the organ was "Rennie" by which it is hereafter to be known. These services, largely of song, are being held every sabbath under the auspices of the Epworth League of the Methodist church and seem to be greatly enjoyed by the patients.

### Gold Nuggets in the Street.

"The streets of some of the mining towns of California are paved with gold," said U. P. Koenig. "Yes, I mean just what I say. A great deal of the rock that is taken out of the mines contains such a small percentage of gold that it would not be profitable to take it out, so when a street needs paving this rock is crushed, and, being exceedingly hard, makes the finest sort of a pavement. After a rain one can see any number of people in the streets picking up pieces of gold ore. Some of these pieces contain \$40 worth of gold, but, of course, such valuable nuggets are rare finds."—Milwaukee Sentinel.
